

Electric Lifting Mobile Lighting Tower

KLT-15000

Electric mast/Flood light+Spot light

Noiseless and environmental with unique features for special occasion

The new lighting towers of the KLT-15000 are characterised by their size and square shape. Two features that make them quicker and easier to move. They are capable of running for up to 10 hours without refuelling and are fitted with two 350W lamps capable of illuminating up to 4,500 square metres. It's electric mast allows a 179 degree rotation and extends up to 5.3 meters high in less than 25 seconds.

They have two doors, a lifting eye, four lifting ring and six 16A auxiliary sockets.

Brief specifications

Minimum dimensions (L*W*H)	1540*1540*1800mm
Maximum dimensions (L*W*H)	2380*2380*5380mm
Dry weight	900kg
Lifting system	Electric
Mast rotation	179°
Lamps power	2*350W
Lamps type	LED
Total lumen	16730 Lm
Illuminated area	4500 m²
Engine	Battrey
Outlet socket (KVA/V/Hz)	2, 5/220/50-2, 5/240/60
Inlet plug (A/V/Hz)	16/220/50-16/240/60
Wind speed resistance	80 km/h
Running time	10 h

■ KLT-15000 light tower

The compact design of the new KLT-15000 light tower and its base configuration assures you that during events it can be moved freely, and the new internal locking system will grant a safe and secure locking of stabilizers. New configurations available!

■ Digital controller

A digital controller specifically studied to manage every function of the light tower for the best ease of use.

■ Lamp options

Choose the lamp type you prefer between two options : 4x320W LED or 4x350W LED floodlights.

■ Low voltage LED

The KLT-15000 represents the state of the art on safety and reliability. All LED installed are powered with low-voltage 48 Volts. No more high voltages on external cables and LED drivers are protected inside the body frame. Safety as a must.

■ Bolted frame

A bolted frame for a much better resistance to vibrations wear and rust. It offers the best reliability and durability in the industry Liquid containment tank A liquid containment tank to avoid any risk of leakages on the ground
